

# FORGOTTEN WAVESHAPER 2

## UPGRADE INFORMATION

Due to the new features present in the “Forgotten Waveshaper 2” and more flexible DSP it had to be made into a new device. But if you have bought the original “Forgotten Wave Shaper” before November 12<sup>th</sup> 2019, you are eligible for a special upgrade. Unfortunately, Reason Studios limits the number of available free licenses so when all of them have been given out you will receive a 50% discount code instead (discount codes might take a while to be created).

To claim your upgrade you must send the following information to [forgottenclank.studios@gmail.com](mailto:forgottenclank.studios@gmail.com):

- Your account name (this is necessary to add a free license to your account)
- Proof of purchase:
  - Screenshot of the order (see below for example). This can be found on [reasonstudios.com](http://reasonstudios.com) → My Account → Orders
  - Screenshot of the product (see below for example). This can be found on [reasonstudios.com](http://reasonstudios.com) → My Account → My Products
